

Content Notifications

Subscribing to content notifications will keep you informed when there are any updates to the model content in InfoSight, CU PolicyPro and/or RecoveryPro. To make sure you stay on top of changes to the model content, you can subscribe to content notifications by following the steps below:

1. Click in the circle with your initial in the upper right corner of the InfoSight360 screen and choose **Notification Settings**:

2. A screen will appear showing **Content Update Notifications** and each product listed below:

Note: *Your access rights will determine what you will see on this screen. For example: If your access rights are limited to InfoSight only, you will not see other products listed.*
